## Ladies' Guild Meets at the Home of Mrs. Saunders

### Guild Will Hold Harvest Sale on Nov. 5th

The Ladies' Guild of the Arrowwood United Church were entertained at the home of Mrs. R. R. Saunders on Thursday afternoon, Oct. 13th. Twenty guests being present.

In the absence of Mrs. J. Mackie, Pres., the chair was taken by Mrs. G. F. Kemper.

The chief item of business dealt with was a further discussion of 'A Country Fair' as suggested at the September meeting and a motion carried, that the Ladies' Guild sponsor same under name of "A Harvest Sale" to be followed by the annual fowl supper on Saturday, November 5th.

The following members were appointed to take charge of the Sale and Supper:

Supper Committee: Mesdames Lewendon, McColeman, Kempner, Steiner and Jones.

Dairy and Cereal Booth: the Mesdames Bishop and Liesemer.

Miscellaneous Booth (including sewing, fancy work, and novelties): Mrs. R. E. Hales.

Fish Pond: Mrs. Leith.

Table Committee: Mesdames McCann and Saunders, assisted by Misses Mackie and Spencer.

Candy and Home Cooking Booth: Mesdames Taylor and Dokes.

Advertising: Mrs. J. C. MacLeod.

A motion was also passed whereby the Guild dispense with their November pantry sale.

At the conclusion of the business meeting, Mrs. Jeanne MacLeod favored the guests with two vocal numbers.

The hostess, assisted by Miss Mackie and Miss Spencer, then served dainty refreshments.

The next meeting will be held at the home of Mrs. Walter Steiner on Thursday, Nov. 10th.

### Editor at Pearly Gates

The editor stood at the pearly gate,

His face was worn and old,  
He meekly asked of the man  
of fate

Admission to the fold.

"What have you done?" St. Peter asked,

"To seek admission here?"

On I ran a country printing plant

On earth for many a year,  
The gate swing open sharply

As Peter touched the bell,  
"Come in" he said, "and take a

harp—

You've had enough of—

trouble."

### HARVEST SALE

Under Auspices of

### The Ladies' Guild

in Arrowwood School on

Saturday, Nov. 5th

There will be a candy and home cooking booth, dairy and cereal booth, vegetable booth, miscellaneous booth and a fish pond.

This will be followed by a

At 6 p.m.

Admission to Supper

Adults 40¢ Children 25¢

### School Notes

The Arrowwood High School Literary Society's party held last Friday night in the school was a great success.

The guests having all arrived by 9:00 o'clock, were led into the spacious recreation room in the basement where the costumes were judged. The prizes won were given by Ruth Bubba and Helen Vassell. Helen Leith and Leonard Williams respectively, received first and second prizes for boys.

After the judging, the assembly was entertained by games and contests supplied by Norm Earl, Jeanne MacLeod, Shirley McIntrye and Arthur Saunders.

About midnight, the guests were conducted to the dining room where they were served with a delightful lunch of sandwiches, salads, cakes, coffee and candy, arranged for by Thelma Miller, Dorothy Brown, Floyd Cary and Donald Bozman.

Both rooms were tastefully decorated with lanterns and other appropriate designs.

Girls' places at the luncheon tables were indicated by place cards. After lunch the guests retired to their respective homes, after an evening of keen enjoyment.

### Mental Health Work

The following letter from head office was read at the meeting of the local U.F.W.A. on Wednesday Oct. 19th.

In my previous bulletins, I have only spoken of physical health, but in this one, I would like to consider with you some phases of mental health work.

I believe that in this more than in any other branch of medicine, remarkable progress has been made.

Last winter, through the kindness of Dr. Barragar, I was able to spend two days at the mental hospital at Ponoka, and must admit that the strongest impression left on me was the atmosphere of kindness and sympathy shown to the patients there. It is a wonderful institution, very capably managed, and a visit to which leaves one marveling at the care and attention given to that patient.

I wish it were possible to tell you of many interesting visits in detail, but as I know and appreciate the fact that usually these bulletins are read at the meetings, I hesitate to make this one overly long, rather would I give you one or two ideas for further study.

During my visit, I attended two lectures arranged for the nurses, of which I cannot speak too highly, realizing how very necessary such knowledge is to women doing this work. The idea is that the mental training course should be affiliated with general hospital training to enable the nurses to become fully qualified in taking care of the many psychiatric conditions presented in general practice.

There can be no doubt but that in the future psychiatry will have a much important place in medical education and in medical practice than it has had in the past; therefore nursing education must advance in the same direction. It is now recognized that at least 40 per cent of the patients

in general practice present psychiatric problems in various proportions, and I would like to urge consideration of the following resolution:

"In view of the importance of the work that is being done in the care of mental patients of the training now being carried on in mental nursing, and of the character and standards of the nurses in training;

"Be it resolved, that we, the United Farm Women of Alberta, strongly urge upon the Senate of the University and the nursing profession of the Province, a sympathetic consideration of the petition for recognition and for the approval of affiliation."

If these short courses can be arranged in affiliation with mental hospitals, the average nurse's ability to deal with many psychiatric conditions can be greatly increased.

There is also one other resolution sent by the Wedgewick Conference, in which the Provincial Government is asked to enact legislation making it necessary for persons seeking to obtain marriage licenses to first pass physical examinations before such licenses are granted. This is asked for in view of the burden of caring for particular institutional institutions is steadily increasing.

These two resolutions will, I am sure, provide you with material for discussion, and prepare you for the vote to be taken on them at the convention.

With very best wishes to you all, and hoping that this year may make us realize to the full the value of our organization and make us endeavor to bring up our membership to all possible strength,

Sincerely yours,  
MARY BANNER  
U.F.W.A. Convener of Health,  
Downing, Alberta.

### Prize Winners at the Milo Health Exhibit

The exhibition of Health Posters and Health Essays, held in the Milo L. O. O. F. Hall on Saturday, Oct. 15th, for the schools not in any School Fair was very successful. The very interesting program of Health plays and Recitations and Physical Training was much enjoyed.

Following is a list of prize winners:

#### Health Poster

Gr. 1-2 Betty MacKenzie, Milo

Dorothy Page, Milo

Douglas St. Peter, Milo

Betty Johnson, Milo

Elizabeth Smith, Rocky

Butte

Bobby McCarthy, Berry

Willard

This prize is awarded for points in:

1. Care of School.

2. Equipment—Drinking fountain or individual cups, wash basins, paper towels or individual towels, sufficient drinking water for the day.

3. Health Education and Lunch Supervision—Pupils wash hands before lunch, and eat lunch at desk, monitors are chosen to sweep floor after lunch. During winter months mothers take turns sending one hot dish to be warmed and served at noon.

4. Improvement of Pupils Since Last Inspection—What gain the pupils have made, and any defects remedied.

5. Improvement of School Since Last Visit—if the School Board have carried out any suggestions for improvement since last visit.

School Pupils making best House out of food stuffs:  
1st—Rocky Butte

2nd—Milo, Jr. Room

3rd—Cobble Hill

Miss Davidson, Public Health Nurse, awarded pictures to schools getting first prize. These were awarded to Rocky Butte for best Health Program and Health House made.

Schools contributing to the program: Swastika, Sandpit, Milo Junior, Rocky Butte, Berrywater, Milo High School.

M. H. Ward, Reeve, awarded the prizes.

The exhibition was brought to a close by the singing of "God Save the King."

The Judges of the Posters were: Mrs. R. R. Saunders and Mrs. Lewendon, Arrowwood; Mrs. E. Sharp, Milo.

The Judges of the Essays were: Mr. Sharp, Swastika School; Mr. Mowat, Shouldice School; Mr. McCullough, Arrowwood School.

### Local and Personal

Margaret Richards spent the week-end with Vern Hesketh.

Mrs. W. Service was a visitor in Gleichen Tuesday.

Mr. and Mrs. T. S. Board were visitors to Calgary last Friday.

Mrs. J. B. Hursh attended a meeting of the Eastern Star on Tuesday evening.

Mrs. and Mrs. Lawrence Larsen were visitors to Calgary last Saturday.

Rev. H. D. Lettch will preach at the Arrowwood United Church next Sunday morning.

Mr. and Mrs. R. F. Williams spent Sunday at the home of Mr. and Mrs. M. R. Leonard.

Mr. R. R. Saunders and son Arthur were Calgary visitors last week-end.

Mrs. T. Lloyd returned from Calgary last Saturday. She was accompanied home by Miss G. Lloyd.

The Misses Isabel Mackie and Leona Spencer motored to Calgary Friday night and returned Saturday evening.

Fredy Jones, assisted in the L. F. Chrestenson and Co. store on Monday, while Mr. Chrestenson was in Calgary.

The next meeting of the U.F.W.A. will be held at the home of Mrs. R. R. McBride on Wed., Nov. 2nd.

FOR SALE—Heater, pipes and board, in first-class condition, belonging to H. M. Kerr, for particulars apply F. E. Bell.

Mr. and Mrs. G. W. Evans of the Gleichen Call, were visitors at the home of Mr. and Mrs. H. E. Brown. While in town Mr. Evans paid the Resource a friendly call.

Miss Isabel Mackie, local teacher, has been confined to bed since last Sunday and Mrs. Marsh is substituting in the Primary room during her absence.

"Fresh from the Gardens"

## Troubled With Her Children Having Summer Complaint

Mrs. L. E. Montgomery, Ave. K, South, Edmonton, Sask., writes:—"I am the mother of two children and have a great deal of trouble with them having summer complaints. I have tried several times every summer they were subject to attacks."

"I have found Dr. Fowler's Extract of Wild Strawberry to be the most effective remedy and keep it in my medicine cabinet. I take it immediately on the first sign of any bowel complaint."

"Thanks to 'Dr. Fowler's' I no longer dread the summer months."

## What The Census Tells.

Statistics are generally regarded as dry and uninteresting, but to those who make a study of them as they relate to matters of vital importance to the welfare of the human family they become of absorbing interest. In fact, a knowledge and understanding of statistical matters such as these are essential to a true grasp of such matters, and where it is possible to present such information to people in the form of charts and graphs they tell a story which mere words could never convey.

Within recent months the Dominion Bureau of Statistics, which, by the way, is one of the best organized and most efficient departments of the Ottawa public service, has issued a large number of bulletins presenting statistics of all kinds, many of which are of interest to us all and which are worthy of study and consideration by the Canadian people. Those indicate what progress has been made, where it has been made, and wherein as a people we have slipped a bit backward, or remained stationary.

Some things stand out as worthy of note. We learn, for example, that Canada's population increased by 1,588,837 in the ten year period, 1921-31, slightly over 18 per cent., which is 2 per cent. higher than the United States, a very healthy and substantial growth, and that the western provinces, which are the most sparsely populated, have more rapid than the five Eastern provinces. Not so satisfactory from the standpoint of the nation as a whole is the disclosure that whereas the population of our cities, towns and villages increased by 1,219,936, or 28 per cent., our rural population only increased by 368,901, or slightly over 8 per cent., with the result that whereas our rural population in 1921 exceeded the urban by 83,000, in 1931 it now exceeds the rural by over 100,000.

It is interesting, too, to learn that of Canada's total population of 10,576,786, no less than 8,069,235, or 77 per cent., are native born Canadians, while a further 1,184,830, or 11½ per cent., are born elsewhere under the British flag, leaving less than 11 per cent. of other than British birth.

Classified by religious denominations, the fact emerges that Roman Catholics constitute the largest single denomination with 4,098,546 adherents; the United Church is second with 2,016,897; Anglicans third with 1,835,351; and Presbyterians fourth with 970,457. Not one of the remaining 27 denominations listed reach 500,000.

Canada's population consists of 5,374,511 males and 5,002,245 females, and the number of males predominate in every one of the nine provinces. There are, of course, more single than married persons, because of the large number of young people in the country, but there is a steady increase in the percentage of single persons constituting only 37.35 per cent. of the population in 1931, as compared with 61.67 per cent. in 1901, while married persons increased from 34.13 per cent. in 1901, to 38.27 per cent. in 1931. The number of widowed remained about the same, but the number of divorced rose from 6.61 or 6.01 per cent. in 1901, to 7.41 or .07 per cent. in 1931.

When we turn to the bulletin on the literacy of the people, a most encouraging picture is presented. It shows that a steadily increasing percentage of our people, from the age of six and over, can read and write, and taking Canada as a whole no less than 92.4 per cent. can do so compared with 90.00 per cent. only ten years ago. That this progress will be continued is made evident by the statistics of school attendance which reveals the encouraging fact that, whereas the increase in population between the ages of 5 and 24 years in the ten year period, 1921-1931, was 19.60 per cent., the number of school children increased by 25.00 per cent., or that one out of every five persons living in Canada is attending school.

Analyzing the economic position so far as agriculture is concerned, it is revealed that, while it was not for substantial increases in many departments in the three prairie provinces, Canada would have had to report a decided slipping back during the past ten years. There are, for example, 356,000 fewer horses on Canadian farms than in 1921, but this is accounted for by the increase in the number of cattle and swine, and taking Canada as a whole no less than 281,000, and actually decreased in the Maritime provinces; other cattle were fewer in number by 42,000, every province except Quebec and British Columbia reporting decreases; sheep increased by 42,000, but again decreases took place in all provinces east of the Ottawa River; swine, on the other hand, showed the substantial increase of 1,343,000, only Nova Scotia and Ontario reporting small decreases; poultry jumped over 250,000, and the same was true of hogs.

The number of farms in Canada is greater by 17,574 than ten years ago, those being fewer in the east and more in the west. Farms are also becoming larger, the average size in 1931 being 224 acres as compared with 198 acres in 1921.

The acreage in occupied farms increased by 22,680,000 acres, while improved land in these occupied farms reached over 15,000,000 acres.

On the other hand, the value of land decreased by \$984,406,709 and by \$1,111,300 in all provinces except Quebec, Ontario, Manitoba, and the eastern provinces, except Prince Edward Island, decreases in value of buildings, while Saskatchewan, Alberta and British Columbia reported increases.

There was, however, a marked improvement in farm comforts, conveniences and equipment, including automobiles, machinery of various kinds and electric light, radios, telephones, water piped into farm homes, improvement in roads, and shortening of distances to market and railway towns.

Pinkham's Vegetable Compound gives you relief.

Pigeon Racing Popular

An idea of the popularity of racing in Great Britain can be gathered from the fact that there are 10,000,000 pigeons in the country and prize-money of over £1,250,000 annually. During one season each of the four British railway groups will carry about 2,500,000 pigeons in special coaches to various parts of the country for liberation.

Silk is considered unclean by the Mohammedans because it is the product of a worm.

## A Lost Island

### Scientists Searching For Tiny Dot Of Land In the Pacific

Sarah Ann, much to the consternation of the authorities, has disappeared, and it is feared, drowned. Just a pin-point freckle on the broad face of the Pacific, Sarah Ann was—and maybe is—the tiniest sort of an uninhabited island.

The Committee of the day was last reported alive 15 years ago. Then of no value to anyone and avoided by ship captains, she has become today a spot of great importance. If she can be located, many scientists want a date some years from now.

The search for the lost island popularity arises from efforts to calculate the course of the 1837 eclipse.

It has been found that on June 28, 1937, the sun will be eclipsed totally by the moon for about seven minutes.

Dr. J. H. St. John, a scientist, was the

only reported spot of land visible for

observation in the 5,000-mile 120-mile wide band of totality.

Unless Sarah Ann can be found, it

is possible a coral reef may be built

up to island status for the seven

minutes.

# SOUR STOMACH

Get rid of all that sourness and gas. End that bilious headache or any sluggishness caused by too much acid. Put the stomach and bowels in good order. Sweeten the whole system with Phillips' Milk of Magnesia. Be sure it is this bottle, with the familiar blue wrapper that tells you it is genuine Phillips' Milk of Magnesia. The substitutes are not the same, and do not get the same results.

ALSO IN TABLETS. Formal Phillips' Milk of Magnesia Tablets are the right size to fit in the pocket where one tablet is the equivalent of a teaspoonful of genuine Phillips' Milk of Magnesia.

Made in Canada

## Traffic Between U.S. And Canada

Statistics Show 45,312 During 1931  
Crossed Boundary During 1931

Total traffic of international bridge, ferry and tunnel companies during 1931 consisted of 7,957,983 motor vehicles, 212,000 horse-drawn vehicles, and 26,126,167 pedestrains, plus passengers, exclusive of drivers of vehicles. This tally counts one round trip on two trips. Including drivers, the total number of persons crossing the border by land, water and through tunnels was 53,122,767. Other international crossings, according to the Canadian Government Bureau of Statistics report on tourist traffic, included: motorists crossing on highways, 8,537,474 persons; railway passengers, 1,367,000; air passengers, 2,339,616 persons; boat passengers other than ferry, 508,500; a total of 11,085,590, which added to the 33,728,740 persons—whom crossed from Canada to the United States and vice versa, by bridge, road, rail and tunnel, made a grand total of 45,312,210.

The highway motor traffic is estimated, based on the Customs data on motor vehicles entered and exported, and the average number of persons per vehicle as computed for the year just past.

The heaviest traffic was between Detroit, Michigan, and Windsor, Ontario, and Walkerville, Ontario, where two ferry companies operate across the Detroit River, in addition to one bridge and a tunnel. Motor vehicles and vehicles, a railway tunnel and three systems of railway ferries also cross at this point. The traffic on the bridges across the Niagara River at Fort Erie, Ontario, Niagara Falls, and Queenston, Ontario, was also heavy.

The international boundary between Canada and the United States extends over 5,500 miles, of which 3,100 miles are land boundary and 2,400 miles are water boundary. The

## For COLDS

It always uses BABY'S OWN TABLETS to break up my colds," writes Mr. W. G. Colquhoun, St. John Falls, Okla.

"When I see a cold coming on, it is to BABY'S OWN TABLETS I turn to," writes Mr. Robert Greenbaum, Philadelphia, Ont.

And here's every open in my circle of the satisfied users that follows the use of BABY'S OWN TABLETS in treating colds, influenza, tertian fevers, simple fevers, diphtheria, croup, constipation, 25 cents.

Dr. William...

BABY'S OWN TABLETS

W. N. U. 1932

land boundary is marked by 3,000 monuments and a ditch cut through the tree-covered areas; the water boundary is identified by 2,530 reference marks. This boundary comes under the jurisdiction and administration of the International Boundary Commission, comprising two Commissioners, one representing Canada and one the United States. They are guided in their work by the terms laid down in the International Treaties, and the two Commissioners constitute what is probably the longest undefended boundary in the world; for no armament of armed forces can be maintained by either country at any point along the 5,500 miles.

## Massachusetts Store Makes Unusual Offer

To Reduce Sheets From Customers As Advanced Price

Confidentially it is reported that there was an unmistakable upward trend in the cotton and cloth markets

led a Lynn, Mass., department store

to offer to return unused sheets

and towels to anyone who would

return them within a month.

From October 1 to November 1,

at 10-centc each sheet prices paid

the seller—the sale of a dozen

or more sheets will be given back

at 10 cents apiece.

left Drumheller in 1923 he accepted the call to that church. Masonry has claimed his loyalty and he has rendered her noble service. Members of his home Lodge honored him with the highest offices at their disposal. And for two consecutive years he was Chairman of the Grand Lodge of Alberta. He has always had road work pleasure and profit his address as given before that body and printed in their proceedings. And at the 1929 District meeting held in Drumheller, at the request of Rt. Wor. Bro. Cameron, he gave the address.

He is a very active Rotarian and has served continuously on the program committee since coming to Drumheller.

In community service he has always been very active. Among his congregation at Regina were such men as the Rt. Hon. Dunning and during the agitation for cheap railway rates for Alberta coal, Mr. Leitch was sent as a delegate to Ottawa and it was largely due to his efforts that the measure succeeded. At the last provincial election when Hon. F. C. Moyer was elected for Drumheller, each of the three parties Labor, Liberal, and Conservative, approached him asking that he accept their nomination. In each case it was done without the knowledge of the other candidates and when it became known they sent a joint committee asking him to run and they would put no other candidates in the field. Nor is this the first time that Mr. Leitch has been asked to represent his constituency for he was also approached at Regina. But on both occasions, for personal reasons, he declined. During the past couple of years there has been much suffering in the mining areas and a great deal of his time has been devoted to the various relief organizations.

Mr. Leitch is a preacher and lecturer of the first rank. A

year ago he occupied the pulpit of Wesley Church Calgary for a month and this year along with such men as Bishop Jones and Principal Kent, he supplied Knox while Dr. Dickson was away in Scotland. On Sunday, October 20th, Mr. Leitch will speak on all the points on this pastoral charge and on Monday evening at 8:30 in the United Church, Gleichen, will give his very humorous lecture "People We Meet and Don't Want to Meet Again." It's a treat; don't miss it.

## Here and There

A total of 120 sailings to and from Britain are to be made during the coming season to the Old Country, the majority of which will be by Canadian Pacific steamships.

A rise in wholesale prices in Canada during September is considered to be one of the outgrowth factors in the decline in the Canadian economic situation according to a statement recently issued by the Department of Trade and Commerce.

Popularity of Canadian tobacco in the United Kingdom is increasing. For the eight months to April 1, 1932, the value of Canadian tobacco valued at \$2,545,530 was exported to Great Britain as against \$2,182,288 for the same period of 1931.

The Canadian silver production in 1931 was approximately 2014 million ounces, ranking third in the world's computed production of 186 million ounces. Canada's production of silver ranked third amongst the silver-producing countries of the world, being exceeded only by Mexico and the United States.

New Brunswick is to stage the North American Cover Dog International Trial, an annual sporting event. Since the two days' trial concluded at Peterville recently, has brought about the formation of a permanent dog fanciers and owners association which has fixed dates for 1933.

Photographs of Bangkok's shrines, temples, statues, and other places of interest can be taken during world cruises by Canadian Pacific Line. Returns are being made to King Prajadhipok by the Siamese Government, who paid the expenses of the Far East for the Empress of Asia recently.

Herbert M. Marler, Canadian Minister to Japan, left for Tokyo yesterday. He has just returned from Asia after a two-month vacation in Canada, strong in the belief that the Japanese are on the threshold of great trade developments in the East. With the opening of the Suez Canal, China, the possibilities, said the Minister, are incalculable.

China is on the eve of an era of tremendous development in agriculture, in communications, works and general trade, in the opinion of Major W. S. Nathan, president of the Canadian Pacific, who recently sailed on the Empress of Japan from Shanghai to Peking. He said that the nationalization and expansion of China's railways would be the chief in this expansion, he stated.

Three months in the unexplored regions of the Fairweather Range in Alaska, with mountain climbing, snowshoeing, hunting and skiing, was the unusual summer holiday of a party of Harvard students, organized and headed by H. Bradford Washburn, Jr., president of the Harvard Mountain Club. They traveled on Canadian Pacific's "Imperial" train to the Alaskan Mater recently. "We had snow, and snow," said Mr. Washburn, but otherwise the party is bringing back many interesting photographs of their experiences.
